

SEROLOGICAL PIPETTES

SEROLOGICAL PIPETTES

- High quality polystyrene (GPPS) manufactured in a 100,000 grade world-class cleanroom
- Universal fit/plugged/sterilized
- Capacities: 1 ml, 2ml, 5ml, 10ml, 25ml, 50ml
- Calibration rate of capacity: within $\pm 2\%$
- 25 ml and 50 ml pipette tip (nozzle) connected to the tube body by ultrasonic welding
- Different color codes for easy volume identification
- Rigid two-way scale ideal for sample addition and reduction
- Negative graduation
- DNase-free, RNase-free, pyrogen-free, and endotoxin-free
