

AUTOMATIC AND MANUAL PIPETTE TIPS

Overview

All pipette tips are produced from high quality polypropylene (PP) in a 100,000 world-class clean room (class 8).

The quality control process in our CE certified facilities adheres to ISO 9001/13485, ISO 14001 standards and all tips are certified free of RNase, DNase, pyrogen and are endotoxin safe.

AUTOMATIC AND MANUAL PIPETTE TIPS

Overview and Features

GUARANTEED PRECISION AND ACCURACY

- Thin Wall Crown provides a better seal and flexibility
- For robotic and universal tips

- DRM Dual Resin ensures a better fit and flexibility
- For robotic tips

- R&R Low Retention minimizes reagent and sample retention
- For robotic, universal and manual tips

AUTOMATIC AND MANUAL PIPETTE TIPS

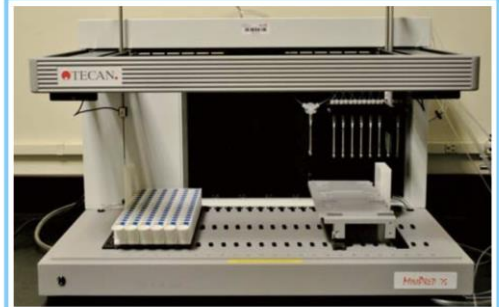

Tecan Compatible Series

AUTOMATIC AND MANUAL PIPETTE TIPS

Tecan Compatible Series

Black Tips 10 µl and 20 µl

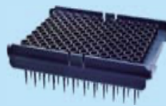

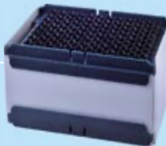

Format: 96-tip format
 Tip Volume range selection: 20µl
 Material: Conductive Polypropylene
 Alternatives: with/without aerosol-barrier filter
 Pre-Sterilized/Non-Sterilized
 Low Retention/Standard
 Certified: DNase-Free, RNase-Free, Endotoxin-Safe

Tips Compatible for

Tecan Genesis Freedom® | Freedom Evo® | Miniprep with LiHa
